Floor Care System

G-STRIP - WAX STRIPPER

Resilient and hard floor wax/finish stripper. Heavy duty product, yet simple to use.

New technology destroys bonds that hold finish and wax together. This allows more complete floor finish removal, allowing the floor to be stripped better, faster, easier and SAFER.

Does not contain harsh caustics, ammonia or solvents. G-STRIP contains a low odor formula and a micro foam catalyst that creates a lubricant to protect floors from harsh floor pads.

G-NEUTRALIZER

Neutralizers and conditions stripped floors properly before the applications of floor sealer/finish to ensure that a proper bonding takes place.

G-CLEAN Cleaner/Conditioner

Conditions surfaces to help repel soils, keeping surfaces cleaner longer. Restores appearance and maintains gloss when used in conjunction with the floor care system.

Cleans and conditions surfaces by adding moisture back into the film keeping floor flexible and adding durability. G-CLEAN is completely biodegradable and does not leave a film or residue after cleaning.

G- FREEDOM SHINE NO ZINC – NO STYRENE

Super "WET LOOK: shine in an ultra high speed, self sealing finish. Leaves a CRYSTAL CLEAR and UV resistant finish of the highest quality. Due to the greater gloss restoration capabilities, finish repels impregnation of foreign particles and black heel marks. Dries from the BOTTOM UP, resulting in increase time between stripping and recoating. Clarity and leveling ability allows for traffic lane touch up and blending. Can be used on all types of resilient floors, natural stone, ceramic tile, wood, concrete, rubber, BAT and VCT. Does not contain heavy metals – or Styrene. Safest finish for schools, institutions. Keep heavy metals out of your finish, keep styrene vapors out of the air we breathe.

Carpet Care

G-LIFT

Carpet and Upholstery Cleaner

This super three-in-one multi purpose, upholstery and drapery cleaner. G-LIFT cleans deeply into all types of fibers and fabrics. Unlike conventional cleaners that remove only surface soils.

By restoring the substrate to its like new state, the time required between cleaning increases.

Effective on a wide variety of fibers and fabrics including new generation carpet. Does not leave residuals therefore fresh water rinsing is not necessary.

Use as a pre-spray and pad cleaning as well as a general purpose spotter.

G-NEUTRALIZER

Use G-Neutralizer to remove residuals left from conventional carpet cleaning chemicals. Can also be used as anti-browning agent. Highly concentrated.

G-EXTRACTION

. New technology extraction for carpet, upholstery and drapery cleaning. Formulated for professional extraction and maintenance of all carpet and fabrics. Cleans deeply into all types of fabrics, unlike conventional cleaners that remove only surface soils. By restoring the substrate to its like new state, the time requirements between cleanings increases.

Use in both truck mount and portable extracting equipment.

G- GUARD

A ready to use carpet and upholstery protector. It is simple to use with no special equipment needed. Creates a soil and stain resistant protective shield around the fibers.

Extends the life of all types of fabrics and fibers; it also illuminates the beauty of the fibers at a higher level, for a longer period of time.

No special equipment needed.

G- FRESH ODOR

Concentrated odor counteractant formulated to remove unwanted odors and replace environment with pleasant fresh mint fragrance. Formulated without any alcohols, solvents, glycols or ethylene.

Recent mandates by governments require agencies to require environmental and ecological standards that must be met for a cleaner to be considered for purchasing. Local government and consumers are soon to follow suit. The idea is to create products that minimize the affect on the environment and to eliminate hazards for the user of the product as well as the patrons that may have incidental contact. The NEXT GENERATION PRODUCTS, "GREEN CONCEPTS" meet or exceed standards set by Green Seals, or offer an environmentally responsible solution to hazardous conventional cleaning. Three key issues are fundamental to the Arrow Chemical, Green Concepts products. These fundamentals are; *Environmental Impact*, *Worker Safety* and *Product Performance*

Environmental Impact

Environmentally preferable products are formulated for various tasks for institutional and industrial use in the sanitary maintenance industry.

Qualifying Criteria

No Persistent, Bio-accumulative and Toxic Chemicals

**No Ozone Depleting Compounds
No or Low Volatile Organic Compound Content**

No Hazardous Waste Characteristics

No Phosphate or Phosphonates

Worker Safety

This line of products offers a safer alternative to cleaning, restoring and maintaining surfaces. Arrow Chemical strives to offer the most environmentally friendly form of any cleaner. All the "Green Concept" products are considered environmentally responsible products. Certifications are listed.

Green Seal Certified Formulations

- G-Degreaser
- G-Glass Concentrate
- G-Cleaner Conditioner
- G_Tub-N-Tile

Green Seal Certification Pending

- G-Stripper
- G-Freedom Shine
- G-Extraction
- G-Lift

Enviro-choice certified formulations

- G-Degreaser
- G-Glass Concentrate
- G-Cleaner Conditioner
- G-Stripper
- G-Freedom Shine
- G-Extraction
- G-Lift

| G-DEGREASER: |
|--|
| <p>Super heavy duty cleaner removes soil electrolytically which cleans surfaces better, easier, faster.</p> <p>Conditions surfaces to help repel soils and keep surfaces cleaner longer. Easy to use and long lasting effectiveness lowers overall end use cost.</p> <p>Does not contain any harsh caustics, ammonia or solvents and is less corrosive and is effective in hot, warm, cold hard and soft water.</p> <p>Easily removes animal fats or petroleum oils, grease, antioxidant, asphalt coater, and a wide variety of soils.</p> |

| G-GLASS CONCENTRATE |
|--|
| <p>Cleans better, easier faster and safer. This glass and surface cleaner conditions surfaces to help repel soil and keep surfaces cleaner longer. High concentration, ease of use and long lasting effectiveness lower overall end use cost.</p> <p>Can be used in hard, soft, hot and cold water. Use on all washable surfaces such as glass, stainless steel, doors, walls, ceramic tiles, porcelain, plastic and metal.</p> <p>Leaves no residue after cleaning.</p> |
