NEW PRODUCT BULLETIN

HAND FOAM SANITIZER

INSTANT FOAM WITH DISPENCER

Alcohol Free

- Kills 99.99% of most common germs that may cause illness including E. Coli and MRSA
- NSF E3 Approved for Food Handlers

Instant Foam Sanitizer has been confirmed to reduce MRSA (Methicillin Resistant Staphylococcus Aureus) 99.99% in as little as 15 seconds. Instant Foam Sanitizer is very efficient at reducing bacteria on the skin, effective against a broad range of pathogenic bacteria such as: MRSA (Methicillin Resistant Staphylococcus Aureus), Clostridium difficile, Enterococcus faecalis, Escherichia coli, Escherichia coli O157:H7, Klebsiella pneumoniae, Pseudomonas aeruginosa, Salmonella choleraesuis serotype enteritidis, Salmonella choleraesuis serotype pullorum, Salmonella typhi, Shigella flexneri, Staphylococcus epidermidis, Streptococcus pneumonia, Streptococcus pyogenes, Vibrio cholera, and Yersinia enterocolitica. Published studies report that alcohol gel hand sanitizers actually make the skin dirtier, not cleaner as they remove protective natural skin oils and entrap dead skin cells. Instant Foam Sanitizer produces a fast drying, non-sticky foam that contains unique non-drying, conditioning and moisturizing ingredients, leaving the skin with a soft, refreshing and silky feel.

Directions for Use:

- Pump a small amount of foam into palm of hand.
- Rub thoroughly over all surfaces of both hands.
- Rub hands together briskly until dry.

TYPICAL PROPERTIES*

Appearance	Clear Liquid
Color	Clear
Odor	Icy Blast
pH	5.0 – 7.0
Specific Gravity	.995 – 1.020
Viscosity	<10
