STONE TEK:

- ⇒ **#241: TmT Restorer CLEANER/DEGREASER**
Highly concentrated alkaline cleaner to degrease natural stone.
Designed to rejuvenate floors by removing soap scum and dulling films left by other soaps detergents and grime. Dilute 1:20 with water.
- ⇒ **#242: TmT MAINTAINER DAILY CLEANER**
Concentrated pH balanced cleaner that cleans and rejuvenates porous surfaces. Specially formulated to remove dirt, films and abrasive matter. Fresh scent Dilute 1:20 with water.
- ⇒ **#2192: AR-Restore S-ACID RESTORER**
"SAFE" acid ceramic tile and grout Cleaner: Some surfaces are beyond normal regular cleaning. AR-restore will strip the top layer of grease and grime along with oxidation and wear, leaving behind a renewed and fresh looking surface. New technology has created a SAFE acid that is non fuming and non corrosive.
- ⇒ **#997 REPEL OW OIL & WATER PROOFER**
Water based impregnator/sealer Does not change the look of stone, ceramic, marble, limestone or granite. Repels both oil and water eliminating the need for multiple products. Use indoor or outdoor for permanent protection. Re-apply once per year.
- ⇒ **#995 WATER GUARD WATER PROOFER**
Water based technology for exterior or interior tile, brick, stone, cement, terra cotta, limestone and many other porous surfaces. Even wood. Permanent protection can last years.
- ⇒ **#740: STONE SEAL SEALER BEAUTIFIER**
Solvent based clear coating used to beautify and enhance the natural look of stone, marble and granite. Leaves a water proof durable gloss coat. Removable with solvent
- ⇒ **#238: STONE SEAL W SEALER**
Water based color enhancing sealer. Designed to leave a luster or enhance the look of natural stone, marble and granite. Can be maintained with TmT maintainer without affecting surface. Strippable with strong degreaser.
